

Attention Rideau Community

In the past 2 days some of our residents have unfortunately tested positive for COVID. Your health and safety is our primary concern.

Effective immediately please practice social distancing and wear a medical mask when you are outside of your apartment.

To help you remain socially distanced for your safety, we will be serving meals on each of our individual floors. Breakfast will remain self-serve and be available on your floor. Each floor will have a designated suite with our continental breakfast, snacks, and beverages. Lunch & dinner tray service will be provided in-room at no cost additional to the resident.

Wellness services will continue to be provided as usual. Please wear a mask while our staff is in your suite.

Medication will be dispensed in-room with no increase in fee.

All recreation activities and bus tours will be suspended.

We are being as cautious as possible to ensure your safety and that of our staff. Please be kind to each other during these isolating times. Together we will get through this.

Ann & the Rideau Leadership Team
