

Hello friends & family members.

There is a slowing increase in the number of residents who are COVID positive, and also many starting to come out of isolation.

Thankfully the residents who are suffering from COVID have been experiencing flu-like symptoms. We are so relieved and grateful to share that no one has been hospitalized, though many are full of aches. We've made sure to communicate with families and to involve them in the care plans.

We believe that we are at the peak of infections today, and that the worst is behind us! Assuming that this is true, and that our number of new cases starts to diminish, we will begin getting back to normal!

Sat. March 18th : Select furniture returns to common area – social distancing available

Sun. March 19th : Afternoon recreation begins again with a modified schedule

Mon. March 20th : Dining available either in the dining room or in-room.

Tues. March 21st : Mail returns to self-service and available for pick-up

Wed. March 22nd : Housekeeping services return to normal for those not COVID positive.

Thurs. March 23rd : Furniture returned to common areas lobby

Fri. March 24th : Morning fitness classes and movies resume in the activity room

Sat. March 25th : Family visits resume

Mon. March 27th : All COVID protocols cease, masks are optional for residents.

Until March 27th we ask that everyone wear a mask when in public and practice social distancing as much as possible. We will make sure that we provide the ability for residents to be socially distant during next weeks activities.

Thank you for everything that you're doing to help keep our community safe and healthy. We recognize that many of you are missing your visits with family members and appreciate the phone calls to support your loved ones. We're looking forward to welcoming you back into the residence!

Sincerely,
Ann Leckie
